Introduction

As the Local Enforcement Agency (LEA), Environmental Health Services is certified by the Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste facilities within its jurisdiction. The WPWMA Materials Recovery Facility (MRF) operates under a Solid Waste Facility Permit (SWFP) issued by the LEA. The owner of the MRF has filed an application with the LEA to revise the existing RFI, or more specifically, the Report of Composting Site Information (RCSI) document.

Description of Project

The operator has applied for a revision to the RCSI with no permit changes proposed. The RCSI was updated to reference minor changes for a proposed Research Composting Operations Project.

Local Enforcement Agency's Determination

The LEA reviewed the application package and determined that the proposed changes are consistent with the existing California Environmental Quality Act (CEQA) documents. The LEA further determined that the proposed changes are consistent with the State Minimum Standards and do not conflict with the terms and conditions of the current Solid Waste Facilities Permit. As required by 27 CCR 21660.1, the LEA is distributing this notice for the purpose of noticing its acceptance of the revised application.
